Dedicated and proficient Angular developer with three years of experience in designing and implementing dynamic web applications. Proficient in creating responsive, user-friendly front-end solutions and integrating RESTful APIs while maintaining code quality through best practices. Strong problem-solver with a keen eye for detail and a commitment to continuous learning and innovation in web technologies.

EXPERIENCE

Angular Developer

Code Himalaya Pvt. Ltd

Kupondole, Lalitpur

Aug, 2023 - Present

- Building and maintaining web applications using Angular, HTML, CSS, and JavaScript to deliver visually appealing and interactive user interfaces.
- Designing and implementing scalable and reusable components, following best practices and design patterns.
- Implementing efficient routing and navigation to ensure smooth user interactions and seamless page transitions.
- Utilizing data binding techniques in Angular to enable real-time updates and dynamic user experiences.
- Developing and utilizing services with dependency injection for data retrieval, business logic, and back-end API communication.
- Working closely with back-end developers to integrate front-end functionalities with the back-end APIs and databases.
- Staying updated with the latest Angular features and emerging technologies to enhance development skills.
- Implemented server side rendering in application for better SEO optimization.
- Mentoring junior developers, sharing knowledge and best practices to foster a collaborative and supportive team environment.

Projects:

Hiperbrains Job Portal App

- Led the frontend team in developing the application, ensuring high-quality code and timely project delivery.
- Implemented online video conferencing with white board sharing feature.
- Implemented push notifications using Firebase.
- OTP verification using Twilio.
- Payment integration using Paypal and Stripe.

Case Status

- Developed a management system for tracking and monitoring court cases in India, improving case management efficiency for legal professionals.
- Implemented user-friendly interfaces for case searches, updates, and notifications, ensuring timely access to case information.

SSF (Social Security Fund)

- Managed the development and launch of SSF web application, ensuring accurate tracking and administration of social security funds collected by government of Nepal.

HR Accounting and Inventory

- Directed the development and launch of a comprehensive app that integrates user management, inventory, and basic accounting functions, enhancing organizational efficiency.

Associate Software Engineer(Angular)

IMS Software Pvt. Ltd

Tripureshwor, Kathmandu

Jun, 2022 - Aug, 2023

- Analyzing software requirements, addressing bugs, and implementing new features.
- Designed and developed web-based software, with a focus on POS (Point of Sale) systems and inventory management systems and accounting software.
- Actively contributing to project planning, design, and decision-making processes, ensuring successful project outcomes and meeting client requirements.
- Designed and developed the application's user interface as well as integrating the business capabilities and logic according to the client's specifications using Angular framework.

- Investigating and resolving reported bugs and issues from users or testing and trouble-shooting systems and software ensuring the application is stable and error-free.
- Applied agile development methodologies to enhance project efficiency, conducting regular sprint planning, reviews, and retrospectives.
- Utilized Git for version control, ensuring codebase integrity and facilitating collaboration among team members.
- Providing clear and comprehensive documentation for the codebase to facilitate easy understanding and maintenance by other team members.

Web Developer Intern

Technorio Inc.

Shankhamul, Kathmandu

Dec, 2021 - May, 2022

During my internship, I gained hands-on experience in web development within a dynamic tech environment. I focused on enhancing my skills in HTML, CSS, and JavaScript—key technologies in the field. Through practical projects and mentorship, I developed a strong understanding of component-based architecture and its role in creating interactive, dynamic user interfaces.

EDUCATION

MBA

Lincoln International College

Kathmandu

Sep, 2024 - Present

BSc. CSIT

Prime College

Kathmandu

Oct, 2017 - Oct, 2022

PROJECTS

Movie review app

Movie review app using react-toolkit.

<https://github.com/utkrista-tuladhar/movie-review-app>

Expense trackerapp

<https://github.com/utkrista-tuladhar/expense-tracker-app>

Hand sign language recognition

It was my final year project that involved the development of an algorithm for recognizing sign language

Order management app

SKILLS

HTML, CSS, Javascript, Typescript, Angular, Server-Side Rendering, Module Bundler: Webpack, Version Control: Git, Graphics: Adobe Photoshop

LANGUAGE

Nepali, English, Nepal Bhasa
